

## NR1 & NR2 - Nut Runners

### Use Impact Wrenches to Install Pole Hardware

The new Fairmont Nut Runners are unique patented accessories for installing and tightening pole hardware. It's like having several deep well sockets in one for use with impact wrenches and drills. The NR1 has openings for 1", 13/16", 3/4" and 5/8" square nuts. The NR2 has openings for 1-5/16", 1-1/8" and 1" square nuts. The Nut Runners are hollow so that bolts that

extend up to 6" beyond the nut can be accommodated. Both Nut Runners include a 7/16" hex adapter for use with 1/2" impact wrenches. The socket can be turned end-for-end without removing the adapter from the tool. The Nut Runners are easy to store on the bucket, and their light weight makes them comfortable for lineworkers to use.

## PRODUCT FEATURES

- **Deep well** accepts up to 6" (152 mm) excess bolt length.
- **7/16" hex quick-change** adapter included.
- **Slim profile** for easy use and storage.
