

Liberator Hand Trucks

10 Reasons Why Liberator Trucks Are The Best!

- 1. Extruded aluminum construction is stronger than castings.**
- 2. Frames are rated at an actual 600 lb. capacity.**
- 3. Frames come standard with four sided cross members for increased strength.**
- 4. Aircraft grade rivets rated at 700lbs provide increased strength and more resistance to loosening.**
- 5. Nose plates are constructed of non-cracking, high strength extruded aluminum.**
- 6. Standard, high tensile steel axle will no bend or fatigue under heavy loads.**
- 7. Extruded, not cast stair climbers with extra thick wear strips for long life.**
- 8. Industry exclusive 2 year warranty.**
- 9. Extruded axle brackets for longer wear over cast axle brackets.**
- 10. Parts are interchangeable with most competitors products.**
