

FACT SHEET

Hearing Protection

Condor personal protective equipment offers you a wide range of quality gear made to meet or exceed relevant ANSI and OSHA safety standards.

Hearing Protection Information

COMPLIANCE

OSHA Standard 29CFR 1910.95

For additional information on OSHA Standards please visit: www.osha.gov.

ANSI Standard S3.19-1974

Specifications for testing the attenuation of hearing protection devices. For additional

information on ANSI Standards please visit: www.ansi.org.

Noise Reduction Ratings (NRR)

The maximum number of decibels (dB) that a hearing protector will reduce the sound level when worn.

DECIBEL LEVEL (DB)	EXAMPLES OF NOISE LEVELS
140	Rifle Fired 1 Meter Away
120	Basketball Game Crowd Noise
100	Chain Saw
90	Drilling Concrete, Leaf Blower
80	Vacuum Cleaner
50	Floor Fan

4FRN2

Cap/Hat-Mounted Ear Muffs

- Meet ANSI S3.19-1974

Mount to slotted hard caps. Dielectric ear muffs are nonconductive for use in electrical environments. Electronic smart muffs allow users to retain contact with surroundings while protected from harmful noise. The volume control permits adjustment from max. amplification to total shutoff, with variation from active communication to passive hearing protection. Automatically attenuates for protection when noise levels occur over 85 dB. Includes hard hat adaptor and LED power indicator. Operates on 2 AA batteries.

SKU NO.	NRR (dB)	DIELECTRIC	COLOR
4FRN2	23	Yes	Hi-Vis Yellow

2AAG4

2AAG5

Headband Ear Muffs

- Meet ANSI S3.19-1974

Padded headbands cushion the head and distribute pressure for comfort. Dielectric ear muffs are nonconductive for use in electrical environments. Compact units with adjustable foam-padded ear cushions provide optimal comfort and fit.

SKU NO.	NRR (dB)	DIELECTRIC	COLOR
2AAG4	26	Yes	Yellow
2AAG5	24	No	Yellow

4FRN1

Radio Ear Muffs

- Meet ANSI S3.19-1974

Feature input jack for CD and MP3 players and separate volume control knobs. Operates on 2 AA batteries.

SKU NO.	NRR (dB)	COLOR
4FRN1	23	Yellow
