

IMPACTO® METGUARD

The METGUARD METATARSAL PROTECTOR is a safety footwear attachment which protects the metatarsal area of the foot. Designed and tested to compliment steel cap footwear. The lip of the METGUARD™ sits on top of the steel cap at load point and is secured with existing laces or optional straps. It helps protect the workers' upper foot by deflecting and dispersing the impact of falling loads. The METGUARD fits all safety shoes and boots. It is a perfect economical solution for visitors, temporary workers, clerical, sales people or when there's requirement for metatarsal protection.

- **Made of extremely durable, lightweight and non-conductive polycarbonate**
- **Used with existing footwear and transferable between users and footwear**
- **Attaches with existing laces or optional straps for non-lace up footwear**
- **The METGUARD is practical, comfortable, easy fit and simple to use**
- **Meets minimum impact resistance of 75 lbs as specified in ASTM F2413/F2412**
- **Part # METGUARD - Sold per pair or per case of 20 pairs (12x8x9 inch, 6 lbs.)**
- **Part #METSTRAP - Straps for non-lace up footwear sold separately**

Suitable for use in all workplaces and industries including Mining, Construction, Utilities, Manufacturing, Transport, Storage, Forestry, Retail trade, Warehousing
