## Oven Chain Lubricant™

NSF HI rated. A premium, effective, high viscosity lubricant that penetrates into the chain to provide optimum performance at elevated temperatures. Derived from a carefully evolved blend of high viscosity, nonsmoking [550°F (288°C)], low odor synthetic fluids and surface tension modifiers. These lower the surface tension of the high viscosity fluids allowing them to move effectively to penetrate into the links and pins of the chain and lubricate the chain roller.
