MEASURING WHEELS

MP401E ELECTRONIC MEASURING WHEEL

The MP401E is Keson's only electronic wheel with a steel frame. It is the world's sturdiest electronic measuring wheel and the easiest and most comfortable to use. It will stand up to the harshest conditions.

DISPLAY

Backlit 7 Digit LCD display for low-light usage. Up to 99,999 feet, 11 inches or 99,999.9 in tenths and metric.

SWAN-NECK ERGONOMIC HANDLE

Our patent-pending "thumb-up" grip ensures less wrist strain and superior control.

RELIABLE INPUT SYSTEM: MAGNETIC SENSORS

Dust, dirt and other particles can disrupt a light beam used in competitive units. Our magnetic pick-up avoids these problems.

SEALED COUNTER ENCASEMENT

Designed to NEMA Class II standards, our counter housing ensures that it will not be damaged by rain. What's more, you can safely clean the entire wheel with a damp cloth.

COUNTER SIZE AND PLACEMENT

Our easy-to-read digital counter is in the most protected spot on the wheel. With the handle up, it is nearly impossible for the counter to come into contact with the ground. With the handle down, the roll bar offers solid protection. Counter requires 2 AA batteries (not included).

2-year Limited warranty.
