Aerospace Surface Prep & Paint

Your aerospace operation is focused on perfection in surface prep and paint. Part of this mission is eliminating hazards and waste.

That's why Kimberly-Clark Professional* created The Efficient Workplace – an innovative program that combines proven lean principles with industry best practices and customized product solutions.

It's designed to help you uncover hidden opportunities in your operation that can make a big difference in safety and efficiency:

- Target and eliminate wasteful worker activity with waste savings solutions
- Reduce solvent exposure and usage with better solvent management practices
- Select proper PPE that is comfortable, safe and allows for productivity

The Efficient Workplace can create measurable improvements in safety, quality, productivity and cost.

Apparel

KleenGuard® A45 protective wear is designed for protection in surface prep & paint applications where isocyanate & chromate dust protection is mandated. It allows more freedom of movement and less restriction allowing the worker to complete their job without modifying the garment.

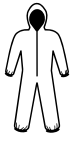

Features & Benefits:

- Silicone free per BMS and AMS test methods¹
- Passes ASTM F903-10 for liquid penetration of isocyanate²
- Protects against chromate dust and chromate epoxy primer
- Reflex* design is 7-1/2 more times less likely to rip out than ANSI minimums
- Storm flap for added layer of protection against dust and liquids
- Water-resistant zipper
- Respirator fit hood
- Passes NFPA 99 for antistatic materials
- Not processed with natural rubber latex
