

EXTENSION LADDER PRO'TOP™

INTEGRATED BUMPER

Soft non-marking/non-marring rubber tread protects the work surface.

POLE GRIP

The V-shape design with rubber tread makes it ideal for working against poles or trees. The Tool slots provide the option for lashing the ladder to the pole or tree.

WIDER DESIGN

Wider design provides greater stability and 700% more contact area on flat surfaces.

CORNER GRIP

The V-shape design provides greater stability on corners.

LADDER FEATURES

- Rung lock with QUICKLATCH®
- Swivel safety shoes w/ metal shield
- Slip resistant D-shaped rungs
- Outside slide guides

WORK TRAY

Non-conductive molded work-tray with convenient handyman's tool slots.

300 lbs. TYPE IA load capacity*
*includes weight of user plus materials

STEPLADDER PRO'TOP™

HARDWARE TRAY
Recessed tray provides area to secure hardware from falling off the top.

PIPE & 2x4 HOLDER
Groove across top keeps pipes and 2x4's from getting away from you.

PAINT BUCKET HOLDER
Convenient recessed tray holds quarter/half/full gallon paint buckets.

MAGNET TRAY*
Easily secures metallic hardware and tools.
* Not available on type II ladders

DRILL SLOTS
Two separate drill slots make for a variety of convenient options especially when also using the paint bucket holder.

SCREWDRIVERS/PLIERS
Featuring plenty of slots, ProTop™ will hold all the tools needed.

CURVED FRONT
Curved surface on front of top helps provide leg comfort.

AVAILABLE ON THE FOLLOWING SERIES LADDERS:

FIBERGLASS: FS1400HD, FS1500, FS2000, FS4000
