

PIG® Absorb-&-Lock® Bio-Fluids Absorbent

#PLP503 - Absorbs Bio-fluids • 4 - 4 lb. Containers

Fast-acting absorbent captures biofluids and "locks" them inside for cleaner, safer disposal.

- Permanently solidifies to lock in absorbed liquids so they won't leak or liquefy when the absorbents are handled or placed under pressure
- Contains chlorine to kill pathogens, reduce odors and help you meet OSHA standards
- Clean scent helps reduce offensive odors during and after cleanup
- Environmentally-friendly product absorbs biological fluids including blood, urine and vomit
- Forms a solid, non-expanding mass for easier, less-expensive recovery and cleanup
- May help you meet EPA requirements when solidifying waste before shipment or landfilling
- Shaker bottle makes it easy to apply absorbent directly onto spill area
- High Btu value produces less than 0.1% ash content, ideal for fuels blending and incineration
