

PIG® Latching Lid for Poly Drum

#DRM1084 - For Most 55-gal. Open-head Poly Drums • Hinged w/ One Hand Latch

Get fast, easy access to drums and meet closed container regs with the only latching lid designed for poly drums.

- The first latching lid designed for open-head poly drums
- 3" EVA gasket and locking mechanism seal lid to help keep drum contents dry and pure
- Two sets of interchangeable spacers help this lid fit the five most common poly drums
- Latching handle easily opens and closes with one hand
- Crowned lid provides a cleaner appearance
- Durable, chemical-resistant powder coat helps ensure long service life
- Lockable latch helps prevent unauthorized access
- Hinge pin is made for easy lid removal without loosening band around drum
- Multiple lid color options let you segregate drums for safe, compliant filling

Technical Information

Warnings & Restrictions:

Flammables Notice

If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

Regulations and Compliance:

29 CFR 1910.134(a)(1) - Engineering controls should be used as a first step in controlling harmful dusts, fogs, fumes, mists, gases, smokes, sprays, or vapors in the workplace.

29 CFR 1910.106(e)(2)(i) - Flammable liquids need to be stored in closed containers that are sealed by a "lid or other device" that does not allow liquids or vapors to escape.

40 CFR 261.4 - Helps you comply with 40 CFR 261.4 requiring excluded solvent contaminated wipes to be accumulated and stored in closed containers while they are managed onsite.

29 CFR 1910.22(a) - All places of employment "shall be kept clean and dry and in a sanitary condition" and floors shall be kept clean and dry.

40 CFR 264.173 - Containers holding hazardous waste, "must always be closed during storage, except when it is necessary to add or remove waste."

40 CFR 262.34(c)(1) - Satellite Accumulation Areas allow generators of hazardous waste to accumulate as much as 55 gallons of hazardous waste or one quart of acutely hazardous waste in containers at or near the point of generation. The container must be kept closed when not in use, must be under the control of the operator generating the waste and must be properly labeled.
