

# PIG® SpillBlocker® Rough Surface Dike

#PLR230 - 2" x 10' x 2.25"

Spills on asphalt can seep underneath standard spill dikes. Stop them in their tracks with our Rough Surface Dike!

- Exclusive New Pig formulation features a tear-resistant top layer with a super-tacky bottom layer that seals tight to rough surfaces and blocks liquids
- Bottom layer "seeps" into surface cracks to form a liquid-tight seal
- Fast protection for when a spill is heading right for your drain on a rough surface; just set dike down with sticky side away from surface, turn dike over and press into place
- Confines and diverts fluids without absorbing them, making cleanup or reclamation simpler
- 2.25" height contains spills up to 2" deep
- Polyurethane material resists water, oils and many chemicals
- High-visibility yellow top color draws attention to spill for increased safety
- Light-weight dike is easy to handle and deploy
- Intended for one-time, limited term use; ideal for containing hazardous or other liquids on rough surfaces

## PLR230 Specifications

<b>Style:</b>	Standard
<b>Color:</b>	Yellow/Black
<b>Dimensions:</b>	2" W x 10' L x 2.25" H
<b>Intended For:</b>	Rough Surface
<b>Max liquid temp exposure:</b>	225°F for up to 30 minutes
<b>Storage Temp Range:</b>	0° — 120°F
<b>Temperature Limit:</b>	0° — 160°F up to 12 months
<b>Sold as:</b>	1 each
<b>Weight:</b>	13 lbs.
<b>New Pig Patent:</b>	5,236,281
<b># per Pallet:</b>	32
<b>Composition:</b>	Polyurethane
<b>Includes:</b>	1 - Connector 1 - Polyethylene Disposal Bags (BAG201-S)
<b>UNSPSC:</b>	24101907

## PLR230 Metric Equivalent

<b>Dimensions:</b>	5.1cm W x 3m L x 5.7cm H
<b>Weight:</b>	5.9 kg

## Technical Information

### Warnings & Restrictions:

#### Urethane Notice

Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity, and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services.

### Regulations and Compliance:

40 CFR 122.26 - When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

40 CFR 112.7 - SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.
