

PIG® Flat Oil-Only Absorbent Sock

#SKM414 - 6" x 48" x 2" • Absorbs up to 2 gal. per sock • 8 socks

Our low-profile flat sock for oils and fuels but not water provides more ground contact for the best protection against seepage.

- Flat design is a hybrid of round socks and flat pillows; hugs walls, machine bases and uneven ground to contain leaks, drips and spills
- Low-profile design puts more material in contact with the ground for better diking and maximum saturation
- Polypropylene skin resists tearing; reduces dust and holds in liquid, even when saturated
- Skin is UV resistant up to 12 months; meets NFPA 99 standards for static decay
- Cellulose filler is highly absorbent for containing and soaking up liquids
- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without absorbing a drop of water
- Not recommended for use with acids, bases or other corrosive liquids
- Nobody knows more about socks than New Pig - we invented them!

Always in stock. Ships within 24 hours.
