# **PIG® Sheen Clean® Oil-Only Absorbent Sock**

#SKM600 - 3" x 48" • Absorbs up to 1 gal. per sock • 12 socks

Cleans up the thin, oily residue floating on water that other absorbents leave behind.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that pulls in thin, filmy sheens of oil
- Ideal for long-term deployment to remove sheen after oil-based spills or absorb oil residue in retention ponds, catch basins, tanks and more
- Polypropylene skin resists tearing; reduces dust and holds in liquid, even when saturated
- Attached string allows socks to be tied down, tied together or dipped into tanks
- Absorbs and retains oils and oil-based liquids including lubricants and fuels - without taking in a drop of water
- Bright white color makes sock easier to see in outdoor environments and clearly shows saturation level
- Skin is UV resistant up to 12 months; provides long-term outdoor use without degradation
- Can be incinerated after use to reduce waste or for fuels blending
- · Not recommended for use with acids, bases or othe
- Nobody knows more about socks than New Pig we invented them!

Always in stock. Ships within 24 hours.

### SKM600 Specifications

Color:	White
Dimensions:	ext. dia. 3" x 48" L
Fluids Absorbed:	Oil-based Liquids But Not Water
Recycled Content:	90% Post-Consumer Recycled Cellulose
	Waste
Absorbency:	Up to 12 gal. per box
Absorbency per:	Up to 1 gal. per sock
Sold as:	12 socks per box
Weight:	17 lbs.
# per Pallet:	24
Composition:	Skin - Polypropylene
	Filler - Proprietary Blend of Hydrophobic
	Cellulose with Oil-Absorbent Co-Polymers
UNSPSC:	47131904

## **Technical Information**

#### Warnings & Restrictions:

There are no known warnings and restrictions for this product.

#### **Regulations and Compliance:**

40 CFR 122.26 - When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

40 CFR 112.7 - SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.
