

# PIG® High Flow Roof Leak Diverter

#TLS675 - 6' x 6'

High flow design catches and diverts up to 10 gallons per minute to prevent large leaks from becoming a big problem.

- Hangs easily in problem spots to catch high volume leaks and channel them to a floor drain or collection container
- Nonpermeable tarp is vinyl coated for strength and durability; resists punctures, UV and mildew for long life
- 3" diameter flat hose drains up to 10 gallons of liquid per minute without backing up
- Pinched corners help funnel liquid toward center for better drainage
- Grommets resist tearing and make installation easy
- Cut drain hose for a custom fit; insert 90-degree elbow between hose sections to prevent kinking (hose and fitting included)
- Need a custom size or solution? Just call 1-800-HOT-HOGS (468-4647)
