

For custom configurations performed on-site, the MD Ramp System® is made of 100% nitrile rubber, and fit the male/female locking system of the mat. All ramp lengths are beveled and molded with mitered corners and a protruding tab that locks together the two adjoining ramps for a secure, professional corner. Square edges can be achieved by trimming off the miter using the cut line on the bottom of the ramp.

**Product info:**

- The #551 MD Ramp System® can be purchased separately
- These 100% nitrile rubber ramps fit the male/female locking system of the mat and are available as:
- 2 foot long Male Ramps
- 3 foot long Male Ramps or Female Ramps
- 5 foot long Male Ramps or Female Ramps
- All Ramps lengths are beveled and molded with mitered corners and a protruding tab that locks together the two adjoining ramps for a secure, professional corner. For a square edge, simply cut-off the miter following the cut line on the bottom of the ramp
