Blacktop Plunger Cans

Dispense flammable liquids and solvents safely and easily, without waste or exposure

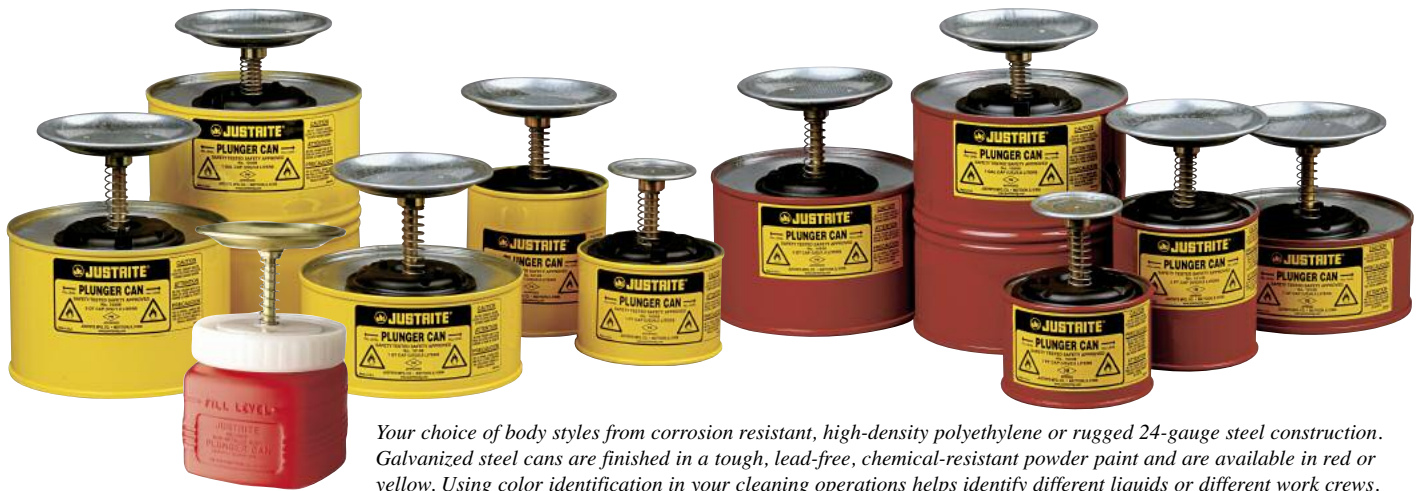

Plunger cans help you quickly and easily moisten cleaning cloths and wipes to clean parts and equipment. New "smart pump" mechanism helps streamline your swabbing operations. Made of chemically resistant Ryton® and brass, the pump base is designed to leave less liquid in the bottom before having to refill. Unlike other units that stop pumping with nearly 1" of liquid at the bottom, Justrite's plunger cans continue pumping with as little as only 1/4" of liquid remaining, a 75% improvement! Refilling occurs less frequently, the work cycle increases, and there are fewer transfers of flammable liquids and therefore potential spills. Combination thermoplastic and brass "smart pump" offers years of trouble-free dispensing.

Pushing down on the pump assembly fills the upper pan with a measured amount of liquid. Surplus liquid drains safely back into reservoir. With each "pump up" more liquid is brought to the surface. Saturation is increased by over 50%, requiring less pump strokes and getting more liquid where you need it.

The perforated upper pan screen serves as a flame arrester. Top rims have molded edge protectors for smooth, trouble-free moistening. Raised bottom ensures can stability. All Justrite plunger cans have earned the approval of Factory Mutual and come with an exclusive 10-year Limited Warranty.

Outperforms all others!

- Refill less often...pumps down to a mere 1/4" fluid level
- Increases saturation level over 50%
- Enhances safety... fewer refills means less chance of spillage
- Increases work cycles... greater convenience and productivity gains

Your choice of body styles from corrosion resistant, high-density polyethylene or rugged 24-gauge steel construction. Galvanized steel cans are finished in a tough, lead-free, chemical-resistant powder paint and are available in red or yellow. Using color identification in your cleaning operations helps identify different liquids or different work crews.

Description and Capacity (litres)	Dasher Assembly	Smart-Pump Assembly	Dasher Dia. (mm)	Dimensions OD x H (mm)	Approval/Lstg. Regulation	Red Model No.	Yellow Model No.	Shipping Wt. (kgs)
1 pint (.5 ltr) steel plunger can	steel	brass & Ryton®	2 3/4" (70)	4 7/8" x 5 1/4" (125 x 133)	FM	10008	10018	2 (1)
1 quart (1 ltr) steel plunger can	steel	brass & Ryton®	5" (128)	7 1/4" x 5 5/8" (185 x 143)	FM	10108	10118	3 (1)
2 pint (1 ltr) steel plunger can	steel	brass & Ryton®	5" (128)	4 3/4" x 7 3/4" (121 x 197)	FM	10143	10141	2 (1)
2 quart (2 ltrs) steel plunger can	steel	brass & Ryton®	5" (128)	7 1/4" x 7 3/8" (185 x 187)	FM	10208	10218	3 (1)
1 gallon (4 ltrs) steel plunger can	steel	brass & Ryton®	5" (128)	7 1/4" x 10 1/2" (185 x 267)	FM	10308	10318	4 (2)
1 quart (1 ltr) nonmetallic plunger can	brass	brass & Ryton®	5" (128)	5 1/2" x 8 1/4" (141 x 210)	FM	14018	-	2 (1)

New pump mechanism may be retrofitted to any Justrite plunger can currently in use.

Less is More

Less Refills = Longer Work Cycles
Less Pumps = More Saturation
Less Chance of Spills = Increased Safety

Blacktop Plunger Cans are ideal for swabbing and cleaning operations. **NEW** “smart pump” action offers unmatched performance!
