

ANTI-SLIP FLOOR AND DECK COATING AS5600 SYSTEM

A fast drying, tough anti-slip coating to brighten up your floors

- Ready-to-use with no messy measuring or mixing
- Acrylic formula provides a flexible, low to medium profile, excellent for concrete, asphalt, wood or metal
- Compliant Nationwide — <100 g/l VOC

ANTI-SLIP FLOOR AND DECK COATING

AS5600 SYSTEM

<100 VOC Anti-Slip Floor and Deck Coating

Less Prep Time • Ready to use with minimal prep time.

Less Application Time • Easy roller application. Versatile formula works on concrete, asphalt, wood and metal.

Less Downtime • Low odor formula can be applied during work hours. Accepts foot traffic in as little as 4 hours.

Greater Lifetime Value • Protection against dusting, staining, wear, chemicals and abrasion.

Typical applications

Interior and exterior concrete floors, walkways, decks and patios in mild industrial and commercial environments exposed to heavy pedestrian and light rubber wheeled cart traffic.
