Carpet backings and yarns have dramatically over the last 25 years, necessitating a re-design of the tools needed to cut these new carpets. Roberts, the inventor of many industry standard installation tools, has continued to improve, innovate and develop new Carpet Cutters to meet the changing needs of the professional flooring installer.

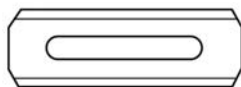

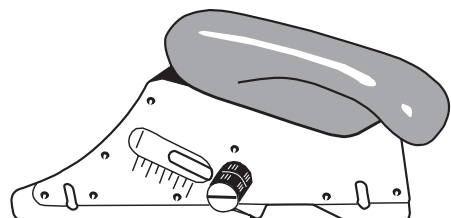

Roberts Professional Carpet Cutters are engineered to the highest standards using modern manufacturing techniques and the highest quality components. The combination of ergonomically friendly handles, quick release blade holders, free blades with every purchase and a limited one year warranty, makes Roberts Carpet Cutters the preferred choice of today's professional carpet installer.

How you cut carpet has changed...and so have our carpet cutters.
