*Magnet completely enclosed in lid assembly/scrap block, not exposed.

A recent survey found the average flatware loss per shift to be approximately 16 pieces, with spoons outnumbering knives and forks two to one.

A KatchAll® Retriever costs much less than your annual loss in flatware, giving you a quick return on your investment.

*Magnet bar assemblies will not attract 18/8 or 18/10 forks or spoons, but will catch knives.
