Creating Safer Work Environments

Spill Station program

Our Spill Station program is designed for quicker and easier response time for cleaning up spills. It will reduce the risk of slip and fall accidents and the high cost of liability claims. Placing the stations throughout the store will allow every employee to act if they see a spill, it is fast easy, clean, safe. The program eliminates the use of wet mops and buckets, your janitorial maintenance team will no longer be needed to clean up spills. Eliminating 40 hours a week in maintenance cost, could save a company an average of 2.3 million a year.

Let us help you design a program that works for you.

Proposed Plan

- Placing a combination of spill centers around the store for fast easy access. Eliminating the need of wet mop and bucket, allowing for faster clean up. By using the SafeGard absorbent employees can quickly absorb liquid sweep and dispose of dry material, our SafeGard Absorbent leaves no residue, all inert ingredients.
- Supply all cashiers with Spill Pads and 16" pop up cone. Allowing them fast clean up, eliminating calling clean up team.
- Supply employees working the floor with Pocket Spill Pads Allows them to react to small spills quickly.

Wire Rack - Spill Center

Mounts to Wall or Post

Spill Station Supplies:

- Absorbent Powder
- Large Spill Pads
- Pop Up Cones
- Box Vinyl Gloves

End Cap Cabinets:

- Pickles, Dressings
- Soda
- Detergents

Each Cashier Stock.

Small Spill Pads

16" pocket cone

SafeGard Absorbent Item SGB-32

SafeGard Absorbent is an easy to use absorbent that quickly and thoroughly cleans up all types of spills. It is odorless, Lightweight, non-toxic, non-carcinogenic and harmless to humans, animals and the environment .Effectively absorbs a wide range of liquids from water to hydrocarbons. All Ingredients are inert

Create a safer facility today!

Spill Clean Up Pads

Item AB-LGCP

Spill Clean-Up Pads allow for quick and easy cleanup of most spills they are durable and easy to use. Each pad can absorb water-based liquid and a small amount of oil-based liquid. Just drop the pad directly on the spill wait a minute and lift the pad to see if the spill has been removed in some cases the pad can be used like a sponge to clean up any residue until the spilled liquid is completely removed.

Large Pads absorbs up to 32 oz AB-LGCP
Small Pads absorbs up to 12 oz SGCP-804

Pop Up Safety Cones

Pop up cones allow for immediate response to a discovered spill or other potentially hazardous floor condition further minimizing the chance of a slip and fall accident.

Available Sizes: 16" 18" 24", 31" 36",

16" Item #PC16WF - wet floor

18" Item # PC111Y- wet floor

24" Item #PC24 - wet floor

31" Item PC131- wet floor

31" Item CC31 – Caution with Strips

36" Item #PC36 wet floor

Broom/Squeegee with Lobby Pan

Item #SB9SET

This 9-inch Broom/Squeegee with a 37-inch handle and Lobby Dustpan have been specifically engineered for spill clean-up applications. The Multi-purpose broom head combines sweeping, scrubbing and squeegee into one cleaning tool. The Unique bristle design allows for sweeping even fine particles on all types of surfaces with a pullback towards you motion. To use the Squeegee application, simply turn the broom head to the squeegee side and push or pull through the spill area.

Keeping the Work Place Safe

Thank you for considering our Slip and Fall prevention program, we are confident our products and program will be a long turn successful investment.

Together we can make the work place safe!
