

HACCP **SmartStep**TM Footwear Sanitizing System

Reduce cross-contamination from footwear anywhere in your facility.

This foot-operated unit uses compressed air to deliver an atomized mist of **Alpet® D2 Surface Sanitizer**. Each application provides ample coverage to footwear soles, yet uses only 0.2 ounces of chemical which minimizes chemical waste and improves moisture control. Collection basin is easily accessed for cleaning.

SmartStep
Sanitizing
unit w/ handle

Features:

- Fine atomized mist provides ample coverage to footwear soles while reducing chemical waste and controlling moisture.
- Fresh Alpet D2 Surface Sanitizer with every application.
- Compact footprint means you can place multiple units throughout your facility.
- System can be tailored to meet your plant's specific needs.

unit w/ scrubber and
handle

*Adding a floor mat with one of our **Dry Step Floor Treatments** provides a sure-footed surface for exiting the sanitizing unit. See other side for details.*

Ideal for:

- Food processing plants
- Nutraceutical facilities
- Pharmaceutical plants
- Clinical research labs

THE ORIGINAL

Ready-To-Use, No-Rinse Sanitizer For Food Contact Surfaces

Alpet® D2 Surface Sanitizer is ideal for water sensitive equipment. It is highly evaporative, non-corrosive and fast-acting. Alpet D2 sanitizes in 60 seconds. With an NSF registered D2 classification, this one-of-a-kind product is powerful enough to kill Norovirus, yet safe enough to use on food-contact surfaces without a rinse.

- Kills 99.999% of tested bacteria and viruses
- Proven rubber boot and rubber glove sanitizer
- NSF and EPA registered
- Ready-to-use, no-rinse, food contact surface safe
- 58% IPA/quat formula
- Kosher certified and Pareve
