

Step Beam Decking

Pre-Galvanized Finish

PRODUCT SHEET

Ready Deck™ wire decking offers a broad array of stock and quick ship sizes along with limitless custom options. Our deck is strong, safe and reliable and simply drops into place for easy installation. **Ready Deck™** increases fire safety by improving performance of your sprinkler system. It is self-cleaning and maintenance free and will provide years of durable use. The Pre-Galvanized decking is fabricated from hot-dipped galvanized wire and coil steel, making it tough and durable and comparable in cost to powder coating. Our **Ready Deck™** Stock Line will accommodate most standard step beams found in the industry today.

Standard U-Channel for 1-1/2" – 1-5/8" Step Beams
