

# Jumbo Storage Cabinets

*Our Largest Storage Cabinets offering 48" Wide Capacity*

Need extra capacity for those "big" storage problems? Tennsco's 48" wide x 78" high cabinet provides 33% more storage space than a normal 36" wide cabinet.

Our specially engineered shelves utilize box formed construction to accommodate heavy loads, even with the extra wide shelf span. Each extra wide door rides on four heavy-duty leaf-hinges while a three-point locking system ensures secure storage for even the bulkiest materials. Integrated levelers keep the unit level on uneven floors. Choose from assembled or unassembled versions.

This cabinet combines welded box-formed shelves, which are securely attached to a heavy gauge steel housing by six shelf tabs making this cabinet a clear winner over inferior offerings.

## Double Handles

Two brushed chrome handles, with one that locks both doors, make opening and closing of the dual swing-out doors easy.

## Levelers

Two adjustable levelers compensate for uneven floors and keep the doors properly aligned.

## Raised Base

Cabinet bases utilize "box" construction to prevent racking while allowing easy access to the bottom shelf.
