

# Literature Sorter

## Durable Construction

All steel, all welded construction provides years of reliable use. Many look-a-like products use hardboard or cardboard, offering a limited life-span.

## Stackable

Knockouts on top, sides and back for tying units together in top-to-bottom, side-to-side or back-to-back configurations.

## Combine Units

Knockouts on sides, top and bottom allow units to be joined top-to-bottom, side-to-side, or back-to-back. Also can be joined to 30-Drawer Organizers. (See page 4)

## Adjustable Slot Openings

Removable trays can be adjusted to make openings bigger or smaller. Trays adjust on 1½" centers.

## Twenty-one Slot Openings

Ample sized openings for material storage and easy access. Packages of five extra trays are available as an accessory item.

## No Assembly Required

Just take it out of the box and it's ready-to-use. No annoying bolts or fasteners required for assembly.

## Easy Access and Indexing Area

Angled front allows users to easily grasp material from the bottom while providing an indexing area.

## Raised Base

Offers protection by keeping materials raised up from floor level.

## Literature Sorters

Tennsco Literature Sorters offer the ultimate in organization and access to company materials, internal documents, forms and paper supplies. They're also great for sorting and distributing incoming mail such as magazines, envelopes, etc.

Literature Sorters may be used individually or stacked on top of each other to meet your specific requirements. Tennsco Literature Sorters are constructed entirely of steel, assuring an outstanding value and years of use.

## Stackable Units

Literature Sorters can be stacked on top of each other and/or attached side-to-side or back-to-back to meet your exact storage needs. For even greater versatility, Tennsco's Thirty Drawer Organizers can be integrated with Literature Sorters.

## Versatile Filing

Tennsco Literature Sorters can be custom designed to your specific applications. Simply rearrange shelves without tools to fit the material you need to organize— not the other way around.
