

## Fact Sheet

# MICROFIBER CLOTHS AND CLEANING PRODUCTS

Solutions for the facility maintenance professional

Dries in half the time  
of ordinary towels

90,000 fibers  
per square inch  
lifts and holds  
dirt and grime.

Absorbs 8 times its  
own weight in water

***SUPER ABSORBENT.  
REDUCE CHEMICAL USAGE.  
SUPERIOR CLEANING  
PERFORMANCE.***

Microfiber's unique characteristics include softness, durability, absorption, and wicking abilities which provide the best cleaning benefits. Due to their fine fibers which leave no lint or dust behind, microfiber products are perfect for just about any cleaning situation. More environmentally friendly by reducing chemical usage which promotes a safe and effective way to clean.

Microfiber is designed for repeated use, unlike disposable cleaning products, which saves you money! Make the right choice, by choosing MICROFIBER products for all your cleaning needs.
