

WOOSTER[®]

SILVER TIP[®]

Gold-Quality Finishes at Silver-Level Prices

Wooster-exclusive CT™ (chemically tipped) polyester filaments are what give Silver Tip brushes their added luster. These filaments have a full-body feel yet they're very thin, flexible, and soft to virtually eliminate brushmarks. The responsiveness and bend recovery of these brushes are perfect for delivering sharp, single-pass cuts. Silver Tip brushes provide excellent leveling and smoothing with all paints, but are especially suited for applying enamels to metal, varnish or polyurethane on wood, and thinner water-based coatings.

Silver Tip

- White and silver CT polyester filaments for excellent leveling and smoothing
- Very soft yet responsive formulation, feather stroke
- Rust-resistant, brushed steel ferrule
- Birch hardwood handle
